ACT 243 (16)

DAVID Y. IGE
Governor, State of Hawai'i

A BILL FOR AN ACT

RELATING TO INTERISLAND MOVEMENT OF INVASIVE SPECIES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the interisland
2 spread of invasive species is harmful to agriculture, native
3 biota, public health, and the economic well-being of the State.
4 Further, the legislature finds that these pests continue to move
5 to new areas within the State through varied transportation
6 methods and on various agricultural and non-agricultural
7 commodities, which may or may not be subject to inspection for
8 pests or subject to treatment. The legislature further finds
9 that the plant quarantine branch of the department of
10 agriculture is a critical component in meeting the threat of
11 invasive species entering Hawaii and spreading throughout Hawaii
12 through the State's ports of entry.

13 To more effectively mitigate the spread of invasive
14 species, the Hawaii invasive species council and the biosecurity
15 program of the department of agriculture should use their
16 strengths and resources more efficiently. The Hawaii invasive
17 species council should direct the invasive species committees to

1 focus their resources on reducing invasive species in non-
2 agricultural areas, specifically conservation lands and
3 residential areas. The department of agriculture should focus
4 its resources on preventing the introduction of invasive species
5 into Hawaii and reducing invasive species in agricultural
6 production areas and performing inspections, certifications, and
7 treatments, if required.

8 SECTION 2. Section 150A-57, Hawaii Revised Statutes, is
9 amended to read as follows:

10 " ~~[+]~~ §150A-57 ~~[+]~~ Annual report. The department shall
11 submit an annual report on the biosecurity program to the
12 legislature no later than twenty days prior to the convening of

15 (1) The schedule required under section 150A-56 ~~[shall be~~
16 ~~included in the pertinent annual report.]~~;

10 explanation why they were not completed."

11 SECTION 3. The department of agriculture shall work
12 through existing contracts and appropriated funds for invasive
13 species activities to undertake invasive species management
14 related to agricultural lands and agricultural and non-
15 agricultural commodities as follows:

16 (1) The department of agriculture shall use general funds
17 to:

18 (A) Develop an interisland and export database that
19 allows for the trace-back and trace-forward of
20 agricultural commodities, type and varieties
21 inspected by the department of agriculture,

1 quantity of commodities, and other pertinent
2 information. All proprietary information shall
3 be kept confidential by the department of
4 agriculture;

6 agricultural commodities transported between
7 islands, without impacting or jeopardizing the
8 inspection of imported agricultural commodities
9 from out-of-state;

10 (C) Develop quarantine treatments for high-risk
11 commodities moving between islands; and

12 (D) Coordinate planning with the department of
13 transportation for inspection and quarantine

18 to address agricultural pests statewide.

20 revenues of the State of Hawaii the sum of \$100,000 or so much
